

THE NEWS.

The chief interest in the news to day is about the "freedom convention" at Louisville, and the wrecking of the steam ship *Bohemian*. The convention seems to be now fairly organized and ready for work, and we shall be able to shortly chronicle its results.

The wrecking of the *Bohemian* seems to have been a fearful disaster, attended with a heavy loss of property and of some lives; the number of the latter being entirely conjectural at present.

Gold has lowered to 57½.

The Kentucky and Wisconsin Resolutions.

We publish to-day a well written criticism upon the colloquy between Messrs. Sloan, Pruyn and Brown, in the House of Representatives the other day, out of which the *Milwaukee News*, and *Madison Patriot* undertook to make some political capital, but with very indifferent success. Our correspondent demonstrates very clearly, what Mr. Sloan charged upon those gentlemen at the time, that they were grossly ignorant of the history of their party and of the platform upon which they have been standing and acting for years, and that they are the last men who should attempt to fasten the stigma of disunion sentiments upon the Republican party. It has been the great drift of the copperhead press and politicians for the last three or four years to invent some way to make the Republican party responsible for the breaking out of the rebellion. Their want of success is not owing to a lack of industry in making charges, or to any squeamish regard for truth. They misrepresent without compunction and lie without limit.

No sensible Republican would be unreasonable enough to undertake to justify, every thing his party may have said or done in times past, but the attempt to convict that party of disloyalty or disunionism is simply ridiculous and absurd, and shows to what shifts the copperhead party is driven, which is itself overloaded with the odium of those hateful doctrines. Like the poor penitents in Dante's Purgatory, it must bend and stoop and crawl under its groivous but self-imposed burdens, but it cannot transfer them to the shoulders of others.

NATIONAL CONVENTION.

The National Union Committee have had a meeting and decided upon the 17th day of June as the day for the National convention to nominate President and Vice President, and Baltimore as the place.

Resolutions were adopted inviting the Territories and the District of Columbia to send delegates subject to the determination by the Convention of their right to vote.

The Committee agreed to meet again at the call of the Chairman. The following members were present:
Messrs. E. D. Morgan, President; Lawrence Brainerd, of Vermont; George S. Goodrich, Mass.; Thos. Turner, R. I.; Gideon Welles, Conn.; Deming Dier, N. J.; Edward McPherson, Pa.; Nathaniel B. Switzer, Del.; Jas. F. Wagner, Md.; Thos. Spooner, Ohio; Henry S. Lane, Ind.; E. Peck, Ill.; H. M. Hoole, Iowa; Wm. D. Washburn, Minn.; Cornelius Cole, Cal.; O. H. Irish, Nebraska; Joshua Gerhardt, Dist. of Columbia.

The meeting was entirely harmonious in its proceedings, and adjourned in the best possible spirits.

A MONSTER GUN.—The *Pittsburg Dispatch* says that a twenty-inch Rodman gun was successfully cast at the Fort Pitt Works in that city, on Thursday last. This is the largest gun ever cast, and its success is a high tribute to the skill and genius to the parties engaged in the work.

In twenty-five minutes after the furnaces were tapped the mold was filled, and in that time 170,000 pounds of metal had passed through into the pool, nearly 7000 pounds per minute. The weight of this monster gun, when finished and turned from the lathe will be 115,000. The whole length, from breech to muzzle will be 243-33 inches, a little over twenty-one feet. The length of the bore will be over 210 inches, seventeen and a half feet. The maximum diameter will be sixty-four inches. The solid twenty-inch ball will weigh one thousand pounds, and the shell about seven hundred pounds. The charge of powder will vary, according to the circumstances, from sixty-two to eighty pounds. Some two weeks it is said, must elapse before it can be lifted from the pit in which it was cast.

THE NEW NATIONAL CURRENCY.—About seven millions of dollars of the new national currency have been issued to the National Banks. This issue is of fives and tens exclusively. The new notes for \$20, \$50, and \$100 are in preparation, and will soon be ready for issue.

The number of National Banks is rapidly increasing. Curiously enough it is now a question with those interested in the management of the new banks as to what public stocks can be obtained, which, by the law, they are required to deposit as securities. The facts that all of the 5-20 loan, and such other Government Securities as have been readily offered have been taken, and that the parties who represent the new banks, are compelled to go into the market to buy them, are certainly proofs that no want of confidence is felt in the Government.

DISMISSED.—The *Whitewater Register* says that late information from the 23rd regiment announces the dismissal of Col. Lewis. Should this information prove correct, Lieut. E. B. Gray, of Whitewater, will probably be Colonel of the regiment. He is a fine man and a good officer.

STATE NEWS.

A man named John O'Hearn, has just been acquitted in the Circuit Court of Milwaukee, on charge of killing his wife. The evidence was so strongly against him that when the jury first went out, seven stood for conviction and five for acquittal. Milwaukee juries are past finding out.

The Spring Term of Grant Circuit Court is to commence this on Monday, the 7th of March. Dr. Clark has taken the pains to canvass Boscobel in view of ascertaining the population, &c. He publishes in the *Broad Ace* as follows: Population, males 500; females 460; dogs 51; hogs 600; cattle 451; horses 400; houses 25; laborers 40; saloons 8; billiard tables 4; dry good stores 12; hotels 3; lawyers five.

—J. M. Cannon of Ellonboro informs the *Grant County Herald* that Mr. S. Harwood of E., who had been to town and imbibed some what freely, became confused and bewildered in endeavoring to reach his home just at night, and although efforts were made to find him, the search was not successful until the following morning.

He survived the exposure only a few hours.

—Col. Allen Burdick celebrated his golden wedding at his residence near Edgerton, Dane Co. on Saturday the 13th inst. The Col. has been a resident of Dane county for the last twenty-two years, and on this occasion there was gathered together some fifty of his descendants and relatives.

GERMANS IN THE UNITED STATES.—A German paper published at Baltimore compares from the census of 1860, the percentage of German population in the several States of the Union. From this it appears that Wisconsin has the highest per cent, it being 15.97; Iowa, Minnesota, Illinois and Missouri come next in their order, and Maine is the lowest, being 0.06. The total foreign-born population of the Union was 4,136,173, or 13.15 per cent. of the aggregate population. The English formed 1.37 per cent, the Irish 5.12, the Germans 4.14. The number of the natives of Germany was 1,301,137. The correspondent who furnishes this table estimates the number of Germans (including their children-born in this country) at four millions.

THE CENTRAL PARK IN NEW YORK is an expensive luxury, though no doubt its benefits to the people of the Metropolis will repay the money expended in purchasing the land, and in laying out and improving the grounds. It is seven years since the gigantic project was inaugurated, and the total expenditure, \$3,015,546 27 for construction, and the balance for land, is \$5,731,217 37. The annual interest on this sum amounts to \$519,838 07, which is almost balanced by the increased tax derived from the improved real estate in the vicinity. The assessed value of the three wards surrounding the Park has increased from \$26,429,565 in 1856 to \$61,410,409 in 1863, being an increase of \$34,480,934, yielding an increased tax of \$508,545 03.

GOLD COIN HOARDED IN THE UNITED STATES.—During the debate in the House to-day, on the bill authorizing the Secretary of the Treasury to sell gold, General Garfield said that on July 1, at the present rate of receipts, there will have been collected \$74,000,000. The pledges of the Government for coin during the same period are \$23,000,000, leaving a surplus in the Treasury of \$50,000,000. The whole amount of coin hoarded in the United States, is estimated to be \$200,000,000 one-fourth of which will therefore be locked up in the U. S. Treasury, and useless to commerce.

DEPARTURE OF THE VETERAN SIXTH REGIMENT.—The gallant Sixth, one of the component parts of the immortal Iron Brigade, left Milwaukee yesterday morning for the field. They took with them something like a hundred new recruits, making the regiment now number, as we are informed, about 350 men.

DISINFECTING AGENT.—Either of the following will answer the purpose, while they cost but a trifle:
1. One pint of the liquor of chloride of zinc, in one paulful of water, and one paulful of chloride of lime in another paulful of water. This is perhaps the most effective of anything that can be used, and when thrown upon decaying vegetable matter of any description, will effectually destroy all offensive odors.
2. Three or four pounds of sulphate of iron (copperas) dissolved in a paulful of water, will, in many cases, be sufficient to remove all offensive odors.
3. Chloride of lime is better to scatter about damp places, in yards, in damp cellars, and upon heaps of filth.—*Scientific American.*

COLD.—Washington dispatches of the 18th say: "The coldest weather ever known in Washington visited the town yesterday and to-day. The nervous of the cold was troubled by a furious north wind. Drivers were taken from the horse-cars this morning disabled. Soldiers were resorted last night from freezing in the suburbs. The mercury then stood six above. A gale in full blast."

A NEW INVENTION.—A traveling office wagon for the Adjutant General's department of the Cumberland has just been completed at the Government shops at Washington. It is a new invention, and accommodates seven clerks and a driver; it is drawn by four horses, and can be taken apart and put together in five minutes. A similar one will be shortly completed for General Pleasanton's Army of the Potomac.

TO OIL DEALERS.—A Few Barrels of Petroleum for sale. Enquire of J. H. POTTER, at his Photographic Factory, 200 N. 2nd St.

SWEET'S Infallible Liniment.—For Sale at the Sign of the Golden Mortar, Main Street.

LOCAL MATTERS.

Schools in Bradford.

NAME OF TEACHER.	WHOLE NO. OF PUPILS.	NO. PRESENT.
No. 1. Nancy W. Kelly,	30	16
No. 2. Edward P. Wells,	18	12
No. 3. J. H. Tracy,	20	10
No. 4. Wm. A. Thompson,	25	19
No. 5. Emily M. Hatch,	27	19
No. 6. No School,		
No. 11. Harriet H. Hayner,	55	36

The school of district No. 2, notwithstanding it labors under the disadvantages of a cold house, seems to be in good condition. Much of this is evidently due to the commendable energy and scholarship of its young teacher. District No. 3, will soon have what the one previously mentioned much needs, a new school house. With such increased advantages, the faithfulness of its present teacher will meet with a larger reward both in the more rapid advancement of his pupils in acquiring knowledge, and also in a full appreciation of his valuable services. He is a superior scholar, and long experience has added to his qualifications as a teacher.

The school in the village of Emerald Grove, the largest in this town, is taught by a female teacher, with more than average success. Her manner in conducting a class, especially in Intellectual Arithmetic, is pleasant and interesting, and secures the attention of her pupils. There is also in this village a select school of twenty-two scholars under the charge of Miss L. L. Meigs. If these two schools could be united, and the pupils graded into two departments according to their attainments in scholarship, better advantages might be afforded to all, with less expense to the community. Not only would the children now in these schools avail themselves of such advantages, but also many others, that have supposed that the public school does not furnish them sufficient educational facilities to compensate them for their time, and have either looked to other schools for these facilities, or have ceased to hope for them.

ALBERT WHITFORD,
Co. Sup't. of Schools, Dist. No. 2.

DONATION VISIT.—The friends of the Rev. J. C. Rogers, Pastor of the Rock River Seventh day Baptist Church, in the town of Milton, met at the house of G. W. Ogden in said town on the afternoon and evening of Feb. 10th, 1864, for a social visit with their Pastor and his family, and to assist him a little pecuniarily. When they left, he found pleased to his credit money and valuables—the most of it cash—amounting to one hundred and ninety-one dollars.

Thus it will be seen that although they have recently built a new church which has drawn largely upon their pockets, they appreciate the labor of their Pastor and do not forget to attend to his wants.

Cor.

YOUNG MEN'S LITERARY UNION.—Mr. A. J. Stone, a Northerner by birth, but for more than eight years past, a resident of the South, will lecture before the Young Men's Literary Union at Lappin's Hall, on Friday and Saturday evenings. Mr. Stone was one of the uncompromising Union men of 1860, and paid for his patriotism by imprisonment in Memphis. He was afterwards compelled to join the Rebel army, but was fortunately taken prisoner at Vicksburg, being inside the fortifications during the entire siege. After being paroled, he preferred to remain among his friends, rather than to return to the hateful business of destroying his government. Mr. Stone has received many flattering commendations from the press wherever he has lectured. He certainly has had opportunities for collecting facts and circumstances out of which to make most useful and interesting lectures, and we think we may safely promise our citizens a rare treat for their attendance.

THE PARTY OF WASHINGTON ENGINE COMPANY No. 3.—The party of Washington Engine Company, at the Hyatt House last night, was of a most pleasant character, and the managers may justly take to themselves a great deal of credit for the very agreeable manner in which it passed off. The party was a large and happy one, the music was fine and the supper unsurpassed by anything ever furnished in this town on a similar occasion. "Mine host" of the Hyatt did himself honor on the occasion. A more orderly and well-behaved company has not assembled for dancing in our city this season.

NATIONAL TABLEAU.—Misses Flora E. Winston and Carrie M. Palmer, of Evansville, are the directors in getting up a series of tableau representations of a national character, in behalf of the Soldiers' Aid Society of that place, to be given on the 2nd and 3d of March, in the Baptist Church of that town. Some former exhibitions in aid of the same object, by the young ladies of Evansville, were of a high order, and received the liberal patronage they so justly merited. We understand these tableaux have been prepared with great care, and there is little doubt of their triumphant success.

FIRE AT NEWARK.—The Baptist Church at Newark in this county was destroyed by fire on Sunday morning last. The value of the building was about \$2,000. It is supposed to be the work of an incendiary.

The court house at Mobile, built at a cost of \$20,000, has just been destroyed by fire.

MAN KILLED IN MILWAUKEE.—An employee on the Milwaukee & St. Paul Rail Road was killed yesterday, while engaged in switching near the depot in Milwaukee. We did not learn his name.

AFFAIRS AT KNOXVILLE!!

Capture of a Rebel Lieutenant!

Confiscation of Rebel Property!

The Maryland Convention for Lincoln!

Encouraging Accounts from Florida

KENTUCKY FREEDOM CONVENTION!

A Washington Letter Opposes Lincoln!

FROM KNOXVILLE.

KNOXVILLE, Feb. 17, via LOUISVILLE, Feb. 22.—Special to the *Herald*.—Affairs at Knoxville for four days past have been threatening, but the enemy who had appeared in some force at Strawberry Plains, have re-crossed the river, owing to a freshet in the Holston. The enemy are now reported to be moving towards Georgia with their cavalry in the Marysville road, and their infantry passing near the base of the Smoky Mountains. There is no present anticipation of an attack here, which may be apt to be made after the river falls.

FROM WESTERN VIRGINIA.

HEADQUARTERS DEP'T WESTERN VA., Feb. 22.—Capt. Wallace, of the 23d Illinois Infantry, returned this evening from a scout to Moorefield, Hardy Co., where he captured Lieutenant Parker, of the 7th Va. Rebel Cavalry, and three horses and equipments. Capt. Wallace is the hero of Greenland Gap, where he fought the rebel General Jones last May, with 80 men against 250, for several hours, killing and wounding more of the enemy than he had men in his command. He was finally overpowered and captured by the enemy setting fire to the roof of his block house. Lieutenant Parker commanded the guard that took Capt. Wallace and company to Richmond. He is now Wallace's prisoner. Such is the fate of war.

FROM WASHINGTON.

WASHINGTON, Feb. 23.—Special to *Truth*.—At a recent session of U. S. District Court, for the Eastern District of Virginia, Judge Underwood presiding, at Norfolk, 28 decrees of condemnation under the confiscation law were made. These decrees covered a large amount of valuable property.

Brigadier-General G. H. Rusken, Chief Quartermaster of the Department of Washington, has asked to be relieved from duty here, and sent into the field.

The Maryland State Convention at Baltimore to-day, instructed the delegates to the National Convention to vote for Mr. Lincoln as their first and only choice.

Within a few weeks the Secretary of the navy has again decided to add another fleet to the national squadrons. In compliance with invitation, propositions have been made to construct the new vessels. They are to be entirely of iron, and are not intended for participation in actual battles.

THE FREEDOM CONVENTION.

LOUISVILLE, Feb. 22.—The Freedom Convention assembled at noon in the United States Court Room. About 100 delegates are present from Kentucky, Missouri, Tennessee and Arkansas. The convention organized by the election of Hon. Wm. P. Thompson, of Kentucky, President; Vice Presidents, M. M. Brien of Tennessee, L. W. Wolf of Arkansas, J. L. Nixon of Kentucky, and John G. McNeill of Missouri; Secretaries, J. S. Fowler of Tennessee, Jas. Lossing of Missouri, J. W. Campbell of Kentucky, and Major L. J. Barnes of Arkansas.

The Secretary read a communication inviting the convention, en masse, to attend the laying of the corner stone of the Union Soldiers' Monument at Cape Hill Cemetery. A committee of three from each State represented were appointed to draft resolutions: Arkansas—J. H. Wolf, L. J. Barnes and Geo. G. Schumack. Tennessee—Robt. Farquharson, W. W. Eighens and W. P. Fowler. Kentucky—Jas. Speed, G. G. Blakely and D. F. Sanford. Missouri—Col. Moss, Col. Arnold and Jno. F. Hume.

The convention adjourned at 3 P. M. to meet at 7 o'clock this evening, to hear an address from Chas. D. Drake of Missouri, which was brief but eloquent, subsequent to which the committee on resolutions not having reported, the convention adjourned to to-morrow at 10 o'clock. During the afternoon session of the convention, the following circular was distributed among several of the members:

"WASHINGTON, D. C., Feb. 18, 1864.
"Sir:—The movements recently made throughout the country to secure the re-nomination of President Lincoln, renders necessary some counteraction on the part of the unconditional friends of the Union who differ from the policy of his administration. So long as no efforts are made to forestall the political action of the people it was both wise and patriotic for all true friends of the government to devote their influence to the suppression of the

LOSS OF THE STEAMSHIP BOHEMIAN!

SEVERAL LIVES AND THE WHOLE CARGO LOST!

Seizure of Privateer Tuscaloosa!

LOSS OF THE BOHEMIAN.

PORTLAND, Me., Feb. 23.—The steamship *Bohemian*, from Liverpool, struck on a rock four miles outside Cape Elizabeth, last evening, and sank about two miles from shore. The night was clear and the Cape light in full view. All the cabin passengers were saved. She had 200 steerage passengers. One boat was swamped alongside, drowning several persons. The cargo was mostly for Provincial and Canadian account, valued at one million dollars. Among the names of the steerage passengers are R. Farrell, wife and three children, of Cincinnati; P. M. Martin, wife and four children, California, and Jno. Lee, Chicago. It is not stated whether these were saved or not. It is thought but few passengers are lost except those in the swamped boat. It is thought some of the former perished. But three mail bags were saved, among them one from Glasgow and California. It is asserted that the press dispatches were lost.

SEIZURE OF A PRIVATEER.

Boston, Feb. 23.—A vessel arrived here brings the news from Capetown, Dec. 31st, that the rebel privateer *Tuscaloosa* had been seized by the British authorities, for violating neutrality law, by landing a portion of her cargo on that coast.

FROM DENVER CITY.

DENVER CITY, Feb. 22.—Clarke, who robbed the Denver Mint on the 15th inst. of \$37,000, has been arrested and most of the money recovered.

Brown in order to maintain his consistency, and not only himself of being tainted with the doctrine of secession which he claimed to be contained in the resolutions of '39, and because he could not evade answering the questions which were repeatedly pressed upon him by Mr. Sloan, in such a way that his very silence would necessarily be construed into an answer at length replies,—that if he thought the Kentucky resolutions contained the same doctrine as the Wisconsin resolutions he "would repudiate" them, and that it was because he thought that the Kentucky resolutions did "not contain any such sentiments" as he had referred to that he had given his "adherence to them." One of two things must be admitted—either Mr. Brown stated what he knew to be absolutely false in relation to the Kentucky resolutions or he was ignorant of the doctrine and language which they contained. It is apparent from the whole discussion that the more charitable view is the correct one. The fact that Mr. Brown makes no attempt to point out any distinction between the resolutions, that he hesitated a long time and then answered by saying that he "understood that the resolution of '38 contained no such doctrine" as the resolutions of '39, that "if he thought the resolutions" alike he would repudiate his platform and that it was because he considered them unlike that he adhered to it, pretty clearly show that Mr. Brown had never seen the Kentucky resolutions and knew nothing about them except what he understood by whispering with partisan friends who happened to be no wiser than himself.

In the language of the *Milwaukee News*, "we regret that Mr. Brown had not the documents on hand;" not "to pin his antagonist to the wall," for he possesses neither the learning nor ability to do that, but in order that he might study and learn something about the political history of his country, and especially of his own party, and thus save the reputation of Wisconsin from having any of its Congressional districts represented by an ignoramus. Mr. Brown's friends deserve censure for undertaking to hold him responsible for the inconsistencies of his votes in Congress during the present session, for he has undoubtedly voted as he "thought and understood" from those who happened to be near him at the time, would be in accordance with the principles of his party.

The *Madison Patriot* did all it could to pacify the more intelligent members of its party in regard to the weakness of Mr. Brown, by making no reference to the facts involved in the discussion, but simply attempting to be witty while indulging in a sneer at "our member," and the *News* could do no more to cover up the ignorance of Mr. Brown than it did by boldly repeating the falsehood which had been so faintly stated by its member, and they go on to talk about justifying "Wisconsin secession by libelling Thomas Jefferson," and "Mr. Sloan's brazen misstatements in the House of Representatives." If the *News* had not always acted upon the principle that a lie well stuck to would answer as well, with the larger and more ignorant portion of its readers, as the truth, it might carry some weight with a class of its readers who possess a fair amount of intelligence upon ordinary subjects, but do not happen to be well versed in the politics of the country. To show the utter recklessness of the *News*, it is only necessary to compare one of its statements in the article referred to, contained in its issue of February 17th, with the fourth resolution of 1859, above quoted. The *News* says: "The Wisconsin resolutions declared 'positive defiance' of the Federal Government by the States, to be the rightful remedy for any act of Federal Government deemed by the States to be unauthorized." The positive defiance mentioned in the resolution, is the "defiance of those sovereignties"—"the several States"—by the general Government, and not a "defiance of the Federal Government by the States," as asserted by the *News*. It is true that the resolution is awkwardly drawn, and as it reads we think it is ambiguous—but it is impossible to give it the construction contended for by the *News*, for the simple reason that you can never make "a positive defiance of these sovereignties" read "a positive defiance of the Federal Government." The resolution simply asserts that the reconstruction of the constitution contended for by the Democratic party in the Booth case—that the general Government is the exclusive judge of the extent of the powers delegated to it, stop nothing short of despotism" and then goes on to state as one of the reasons why—that the general Government thus claims that a positive defiance of these sovereignties by the general Government is the rightful remedy, for all unauthorized acts done or attempted to be done by the general Government under color of that constitution.

We have thus disposed of the issue between Mr. Sloan and Mr. Brown. We think that every one who has carefully read this colloquy and understands the resolutions there referred to, must render judgment against the latter, and in favor of the former. We may in a future article show one of the more odious features of the Kentucky and Virginia resolutions of '38 and '39, and that they were far more defiant than the Wisconsin resolutions which the legislature have been sensible enough to repeal, although Mr. Brown's political friends did all they could to retain the resolutions which, according to their construction recognized secession. If Mr. Brown and the *News* can recognize the doctrine contained in the resolutions of '38, and that of '39 are still more defiant as many be truly proved, even if we should admit the unwarranted construction of the *News*, then verily Mr. Brown and his political associates, including the *News*, stand upon a platform, however much they may deny the fact, contrive to be a secessionist platform. With this view of the question, we are compelled to admit, that the lengthy, sympathizing apologies in behalf of the seceding States and rebels in Kansas, which have appeared in the *News* at one time to time since the war commenced, are perfectly consistent with its political reform.

LEX.

As It Now Stands.

The conscription law has been tinkered at so much by Congress that people generally have lost track of its status. We give below from the Washington correspondence of the New York *Tribune* its present aspect:

—The Committee of Conference on the Enrollment Bill made a report today agreeing upon the main features of the Senate bill, with amendments, and the substitution of a few sections of the House bill. The computation at \$300 is retained, and a compromise is made in limiting the exemption thereby to one year. The exemption of high officials in the Senate bill is stricken out, leaving as the only classes exempt the mentally and physically unfit, and soldiers in the field or honorably discharged.

If the quota be not filled in any district by one draft, another is to be made, until the number shall be obtained. The section authorizing the Secretary of War to assign drafted persons with religious scruples against bearing arms to hospital duty, or taking care of freedmen, is reported with a proviso to those whose department is consistent with their conscientious scruples against bearing arms.

The House provision for arduous colored men is returned, with the essential modification that when the slave of a loyal master is drafted and mustered into the service, thereupon such slave shall be free, and the master shall be paid the bounty of \$100 in the place of its being paid to the master in his freeing the person. It was held by the committee that he must not be a slave a moment after enlisting. It is understood that this is the disputed point upon which a contest is expected to-morrow. The report is signed by Messrs. Wilson, Nesmith and Grimes, on the part of the Senate, and Messrs. Schenck and Deming of the House of Representatives.

Mr. Kernan does not concur in it.

GENERAL PARAGRAPHS.

—Photographic pictures are now transferred to china-ware with great success.

—The Maine Legislature has refused, by three majority, to remove the State Capital to Portland.

—The best newspaper in Constantinople is managed and edited by an Englishman by the name of Churchill.

—The Court of Queen's Bench, Dublin, have decided that women have a right to vote for Town Commissioners.

—Dollar bills purporting to be issued by the Hartford Exchange Bank are in circulation. There is no such bank.

—Knoxville, Tenn., is the oldest city of that State, and was named for Gen. Knox, who was Secretary of War at the time the city was laid out, in 1793.

—It has been decided that the *Express* newspaper in New York must be sold to satisfy the claims of one of the partners in the concern. The Brookses have appealed.

—The New York *World* has received a subscription from an officer in the United States Navy. The event is so extraordinary that it is made the subject of a self-congratulatory editorial.

—Canadian scientific men are beginning to regain the region lying between Lake Winnipeg and the Rocky Mountains as the richest portion of British America, containing iron, coal and gold in abundance.

—The largest locomotive in the United States, if not in the world, has just been built for the Philadelphia & Reading Railroad Company. It has twelve driving-wheels, and weighs more than 100,000 pounds.

—A grand Southern Tier Fair is to be commenced in Elmira on Monday, March 4th, and continue through the week. The railroad lines centering at Elmira have agreed to carry articles intended for the fair free of charge.

WINTER THE TIME TO THINK.—Winter is the time for a farmer to think—spring summer and fall to work; and the three latter seasons' labor will be to little profit if the time of the first shall have been mispent. All the plans of the next season's operations should be laid and well considered during the winter. All improvements, all designs for new operations, all the work to be done, should then be considered and prepared for: so that, when the time for work arrives, he will have nothing to do but "go ahead." Then he has no time to think; but if he has been wise through the winter, he will have no need of it. It is a painful sight to look at in spring, when all nature is in an ecstasy of delight, to see a farmer flying about "like a hen with her head cut off," trying to do a thousand things at once, not knowing which to do first, running here and there in search of rusty implements, some of which require repairs, some not to be found, the plowing season passing away, the planting season rapidly advancing, and he not prepared for anything.

BOOTS FOR BLACK SOLDIERS.—A requisition was made a few days since on the Government for boots for the colored regiment in camp at Quincy, Illinois. The sizes were so enormous that they could not be procured at Chicago, and the agent had to telegraph to Washington to know what was to be done. He was ordered to have the regimental foot measured and send the result to Washington, so that the boots could be constructed there. The sizes range from 12's to 23's! This regiment will be apt to "trample on the rights of the South."

SUGAR CULTURE IN OHIO.—The report of the Ohio Commissioner on Statistics shows that in 1852 there was made in that State less than 8,230,000 pounds of sugar. Of this 27,000 pounds were from Sorghum; that the point is settled that sugar can be made from Sorghum, and if so, that Ohio can make her own sugar wherever becomes necessary or profitable to do so." He aggregates the value of the agricultural products of Ohio in 1852 was \$151,852,245; of this amount the sugar production was worth \$22,120, and the molasses crop \$42,854.

A TORTUOUS WORD.—There is probably at another word in the English language that can be worse "twisted" than that which composes the burden of the following lines:

When we know it written right,
When we write it written right;
But when we see it written right,
We know it is not written right;
We write to have it written right,
Must not be written right or write;
Nor yet should it be written right,
But write—*for so* it written right.

THE MEXICAN QUESTION.—One of the political bon mots of the age was Mr. Fox's parable for Napoleon's Ministers during the recent debate on Mexico in French Legislative Corps. M. Rouher referred to the universal suffrage as a Mexican feeling, on which M. Jules Favre remarked that it was "odd policy to give a nation in order to obtain its vote, and to save the Paris priests," said he, "to save the victims of victims for favoring arguments."

—At Dalton, Georgia, Confederate mortars for sale on the dollar, in gold, through the Confederate Congress has failed, or proposes to make it, a legal ten-

LYONS' KATHAIRON.

LYONS' KATHAIRON—Kathairon from the Greek word "Katharo," or "Kathairo," signifying to cleanse, rejuvenate, and restore. This article is what the name signifies. For preserving, restoring, and beautifying the human hair, it is the most remarkable preparation in the world. It is again owned and put up by the original proprietor, and is now made with the same care, skill, and attention which gave it a sale of over one million bottles per annum.
It is a most delightful Hair Drawing.
It eradicates scurf and dandruff.
It keeps the hair growing and healthy.
It makes the hair rich, soft and glossy.
It prevents the hair from falling out and turning grey.
It restores hair upon bald heads.
Any lady or gentleman who values a beautiful head of hair should use Lyons' Kathairon. It is known and used throughout the civilized world. Sold by all respectable dealers. DEMAS S. BARNES & CO.,
Janesville, N.Y. Proprietors, New York.

WYNKOOPE'S ISLAND PECTORAL.

Diseases of the Throat, Chest, and Pulmonary Organs are ever prevalent, insidious and dangerous. The properties of a medicine to alleviate, cure, and uphold these complaints, must be expectorant, anodyne and invigorating, loosening the mucus of the throat, and imparting tone to the entire system. No discovery in medical science ever mastered this class of diseases as Dr. Wynkoope's Island Pectoral. It is used with the most astonishing results in all cases of Bronchitis, Influenza, Whooping Cough, Diphtheria or Pertussis Sore Throat, Asthma, Croup, Croup, Colds, Nervous Irritability, &c.
The Rev. J. J. POTTER certifies—"that I have used Dr. Wynkoope's Pectoral for several years, myself and in my family, for severe pulmonary complaints, and can most recommended it to many others, and have seen cures equal."

REV. J. J. POTTER, Brooklyn, N. Y.

Handreds and thousands of important testimonials might be produced, showing its remarkable cures and that it never fails.

It is composed of pure Indian Root, Balsam of Gilead, Gum Arabic, Pilocarpum, Coniifery, Burdock, and other invaluable ingredients, and tonic ingredients. It is harmless, prompt and lasting. Invalids and sufferers cannot afford to neglect a trial. Every family would have fit. It is remarkable for Croup. Full directions, recommendations and directions accompany each bottle.

Sold by all the principal Druggists,
Prepared by Dr. D. C. WYNKOOPE, and sold by D. S. BARNES & Co., New York. Jan 2nd/87

THE SINGER SEWING MACHINES.

OUR LETTER A FAMILY SEWING MACHINE is at gaining a world-wide reputation. It is beyond doubt the best and cheapest and most beautiful of all Family Sewing Machines yet offered to the public. No other Family Sewing Machine has so many useful appliances for hemming, binding, felling, tucking, gathering, stitching, braiding, embroidery, cording, and so forth. No other Family Sewing Machine has so much capacity for great work and so fine ingredients. It is simple and durable, and works with the least trouble. Great kinds of cloth, and with all kinds of thread. Great improvements make our Family Sewing Machine most reliable, and most durable, and superior in action at all rates of speed. It makes the needle-worked stitch, which is the best stitch known. An unskilled girl, even of the most ordinary capacity, can see a glance how to use this letter A Family Sewing Machine. Our Family Sewing Machines are finished elegantly and exquisite style.

Folding Case of the Family Machine is a place of convenience and the most useful kind. It protects the machine when not in use, and when about to be operated may be opened in five minutes and substituted tools to sustain the work. When some of the best made out of the choicest woods are finished in the simplest and cleanest manner possible, others are painted and embellished in the most costly and superb manner.

It is absolutely necessary to see the Family Machine before purchasing, so as to judge of its great capacity and operation.

It is fast becoming as popular for family sewing as Manufacturing machines are for manufacturing purposes.

The British Offices are well supplied with silk, twist, cotton, woolen, etc., of the very best quality, and for samples.

HEINSTEET'S INIMITABLE HAIR RESTORATIVE.
It is not a DYE, but restores gray hair to its original color, by supplying the capillary tubes with natural sustenance impugned by age or disease. All instantaneous dyes are composed of lunar caustic, destroying the vitality and beauty of the hair, and afford of themselves no dressing. Heinsteet's Inimitable Coloring not only restores hair to its natural color by an easy process, but gives the hair a luxuriant beauty, promotes its growth, prevents its falling out, eradicates dandruff and imparts health and pleasantness to the head. It has stood the test of time being the original hair coloring, and is consequently more reliable. Used by both gentlemen and ladies. It is sold by respectable dealers, or can be procured by the order of the commercial agents, D. S. BARNES & Co., 232 Broadway, New York. Two sizes, 50 cents and \$1. ang14awool

S-T-1860-X-DRAKE'S PLANTATION BITTERS.
They purify, strengthen and invigorate. They create a healthy appetite. They are an antidote to change of water and diet. They overcome effects of dissipation and late hours. They strengthen the system and enliven the mind. They prevent malarial and intermittent fever. They purify the breath and acidity of the stomach. They cure Dyspepsia and Constipation. They cure Diarrhea, Cholera and Cholera Morbus. They cure Liver Complaint and Nervous Headache. They are the Best Bitters in the World. They make the weak man strong, and are exhausted natures great restorer. They are made of pure St. Croix Rum, the celebrated Galienay Bark, roots and herbs, and are taken up with the pleasure of a beverage, without regard to age or time of day. Particularly recommended to delicate persons requiring a gentle stimulant. Sold by all Grocers, Druggists, Hotels and Saloons. P. H. DRAKE & CO., 202 Broadway, New York. idawgawool
